

Jovan Cicvaric

📍 Tuebingen, Germany ✉ jovan.cicvaric@yahoo.com 🔗 jcicvaric.com 🔄 cile98

Summary

Machine Learning Engineer building and deploying production computer vision systems, recommendation models, and ML infrastructure. Strong background in PyTorch, MLOps, edge deployment, and data pipelines

Skills

ML & Computer Vision

Python, PyTorch, Scikit-learn, OpenCV, NumPy, pandas, Optuna, Keras

MLOps & Deployment

MLflow, ONNX, TensorRT, Docker, Kubernetes, Helm, NVIDIA Jetson, Edge Deployment

Backend & Data Systems

PostgreSQL, MongoDB, SQLite, RabbitMQ, Celery, Redis, Flask, Git

Languages: English (Fluent), German (Intermediate), Serbian (Native), Russian (Native)

Work Experience

Optocycle GmbH, Machine Learning Engineer

Germany
02/2024 – Present

- Led development and deployment of computer vision systems for construction waste classification, anomaly detection, object detection and segmentation
- Deployed production ML models to edge devices across dozens of industrial sites, processing tens of thousands of images and videos daily for real-time construction waste analysis
- Designed end-to-end ML pipelines covering data collection, annotation of 80K+ images, training, validation, deployment, and monitoring with MLflow and Triton Inference Server
- Led development of a plastics classification model combining multispectral vision and LLM-based methods, including RGB-vs-multispectral performance analysis
- Coordinated cross-functional work across ML engineering, data annotation, embedded development, backend/API, and customer-facing teams

Scholar Inbox, Research Engineer / Research Assistant

Germany
06/2021 – Present

- Led full-stack development of a scientific paper recommendation platform used by 30K+ researchers
- Engineered personalized recommendation models trained on user feedback over a corpus of 3M scientific articles
- Co-created a dataset of abstract annotations with 2,425 sub-sentence labels across 691 abstracts

Publications

M. Flicke, G. Angrarbeit, M. Iyengar, V. Protsenko, I. Shakun, **J. Cicvaric**, B. Kargi, H. He, L. Schuler, L. Scholz, K. Agnihotri, Y. Cao, A. Geiger.

2025

Scholar Inbox: Personalized Paper Recommendations for Scientists. | ACL Demo, 2025

- <https://aclanthology.org/2025.acl-demo.30/>

M. Schneider*, **J. Cicvaric***, A. Sauer, A. Geiger, K. Chitta.

2024

Generative Dataset Distillation: A New Hope? | Workshop on the Dataset Distillation Challenge, ECCV 2024

- **Best Paper Award**; ranked **2nd** at the ECCV 2024 Dataset Distillation Challenge Workshop

Education

MS University of Tuebingen, Machine Learning

11/2020 – 05/2023

- GPA: 1.1 (best: 1.0); graduated with distinction

BS Moscow Institute of Physics and Technology, Applied Mathematics and Physics

09/2016 – 07/2020

- GPA: 4.66 (best: 5.0)
